

ABOUT CDP

CDP is a global environmental impact non-profit working to secure a thriving economy that works for people and planet.

Information is the fundamental basis for action. We help investors, companies, states and cities to measure, understand and address their environmental impact.

The world's economy looks to CDP as the gold standard of environmental reporting with the most comprehensive dataset on corporate, state and city action.

We aim to make environmental reporting mainstream and provide detailed insights to drive action for a climate safe, water secure, deforestation free world.
